

2nd North Coast Regional Forum on Water Management and Planning
Thursday, September 26, 2013 1:00 – 4:30 p.m.
(locations listed below, webinar options available)

Please RSVP at: www.surveymonkey.com/s/NorthCoast

The California Department of Water Resources (DWR), in cooperation with local entities and organizations, is holding a Regional Forum to gather and share information relating to the California Water Plan and statewide and local Integrated Water Management. The Forum will also evaluate DWR's regional approach, asking for feedback on ways to improve outreach.

Why Participate?

Ca. Water Plan
Update 2013

- The Forum agenda will provide an overview of the Public Review Draft for Update 2013 of the Water Plan. Information will focus on new and revised content, with details on how to submit comments on the document.
- Extra time will be spent discussing the North Coast regional report, which describes regional water conditions and the water management planning context.
- Help inform statewide investment policy through review of key elements of strategic water planning issues, priorities and recommendations. These items will be captured in the Executive Summary of the Regional Report that will be included in the Water Plan Highlights document.
- Hear information on regional conditions: natural systems hydrology in the Scott and Shasta Valleys, and groundwater systems in Shasta Valley and Sonoma County. There will be updates on related programs, including the Flood Futures Report, IRWM strategic plan and more.
- Influence DWR's future outreach efforts.

Representatives of water agencies and regional groups; local, state, Tribal and federal government; watershed and community groups; conservancies; and the public are welcome and needed for successful dialog.
